BILLING CODE 7050-01-M

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Records Schedules; Availability and Request for Comments

AGENCY: National Archives and Records Administration, Office of Records Administration.

ACTION: Notice of availability of proposed records schedules; request for comments.

SUMMARY: The National Archives and Records Administration (NARA) publishes notice at least once monthly of certain Federal agency requests for records disposition authority (records schedules). Records schedules identify records of sufficient value to warrant preservation in the National Archives of the United States. Schedules also authorize agencies after a specified period to dispose of records lacking administrative, legal, research, or other value. Notice is published for records schedules that (1) propose the destruction of records not previously authorized for disposal, or (2) reduce the retention period for records already authorized for disposal. NARA invites public comments on such schedules, as required by 44 U.S.C. 3303a(a).

DATES: Request for copies must be received in writing on or before February 12, 1996. Once the appraisal of the records is completed, NARA will send a copy of the schedule. The requester will be given 30 days to submit comments.

ADDRESSES: Address requests for single copies of schedules identified in this notice to the Records Appraisal and Disposition Division (NIR), National Archives and Records Administration, College Park, MD 20740. Requesters must cite the control number assigned to each schedule when requesting a copy. The control number appears in the parentheses immediately after the name of the requesting agency.

SUPPLEMENTARY INFORMATION: Each year U.S. Government agencies create billions of records on paper, film, magnetic tape, and other media. In order to control this accumulation, agency records managers prepare records schedules specifying when the agency

no longer needs the records and what happens to the records after this period. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. These comprehensive schedules provide for the eventual transfer to the National Archives of historically valuable records and authorize the disposal of all other records. Most schedules, however, cover records of only one office or program or a few series of records, and many are updates of previously approved schedules. Such schedules also may include records that are designated for permanent retention.

Destruction of records requires the approval of the Archivist of the United States. This approval is granted after a thorough study of the records that takes into account their administrative use by the agency of origin, the rights of the Government and of private persons directly affected by the Government's activities, and historical or other value.

This public notice identifies the Federal agencies and their subdivisions requesting disposition authority, includes the control number assigned to each schedule, and briefly describes the records proposed for disposal. The records schedule contains additional information about the records and their disposition. Further information about the disposition process will be furnished to each requester.

Schedules Pending:

1. Tennessee Valley Authority (N1-142-95-13). Facilities Services Organizations general correspondence files.

2. Tennessee Valley Authority (N1-142-95-17). Divisional correspondence files for the Purchasing function.

3. Tennessee Valley Authority (N1-142-96-1). Employee Transition Program employee history files.

4. Tennessee Valley Authority (N1-142-96-2). Succession planning program files.

5. Tennessee Valley Authority (N1-142-96-3). Energy and engineering project and procurement records.

Dated: December 18, 1995.

James W. Moore,

Assistant Archivist for Records Administration.

BILLING CODE 7515-01-M

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-440]

Cleveland Electric Illuminating Co., et al.; Order Approving Transfer of License for Perry Nuclear Power Plant

I

Cleveland Electric Illuminating Company (CEI), Centerior Service Company (CSC), Duquesne Light Company, Ohio Edison Company (Ohio Edison), Pennsylvania Power Company, and Toledo Edison Company are the licensees of Perry Nuclear Power Plant, Unit No. 1 (PNPP Unit 1). CEI and CSC act as agents for themselves, and the other licensees and have exclusive responsibility for and control over the physical construction, operation, and maintenance of PNPP Unit 1 as reflected in Operating License No. NPF-58. The Nuclear Regulatory Commission (NRC) issued License No. NPF-58 on March 18, 1986, pursuant to Part 50 of Title 10 of the *Code of Federal Regulations* (10 CFR Part 50). Ohio Edison holds title to 17.42 percent of PNPP Unit 1 and leases another 12.58 percent of PNPP Unit 1 pursuant to the sale and leaseback transactions previously authorized by Amendment 2 to License No. NPF-58. The facility is located on the shore of Lake Erie in Lake County, Ohio, approximately 35 miles northeast of Cleveland, Ohio.

II

Under cover of a letter dated November 17, 1995, from Shaw, Pittman, Potts and Trowbridge, Ohio Edison submitted its request for approval of its intended transfer of its 17.42-percent ownership interest (less the ownership interest in the accompanying transmission facilities) to a newly formed wholly owned subsidiary, OES Nuclear Inc. (OES). The sale effecting the transfer would include a provision that would allow Ohio Edison to convert a steam purchase agreement to a lease to itself at some time in the future. The other licensees would remain the same and would not be affected by the proposed transfer. By letter dated November 22, 1995, CEI submitted a license amendment request to reflect the proposed change in Ohio Edison ownership. On December 11, 1995, a notice of proposed ownership transfer was published in the Federal Register (60 FR 63548).

The transfer of Facility Operating License No. NPF-58 is subject to the consent of the NRC as described by 10 CFR 50.80(a). Ohio Edison will remain as a licensee of PNPP Unit 1 and

proposes to add OES as an additional licensee. Ohio Edison would make payments to OES in an amount sufficient for OES to pay its expenses and would retain full responsibility for the costs of operating, maintaining, and decommissioning the interest in PNPP Unit 1 transferred to OES. OES will be an "electric utility" as defined in 10 CFR 50.2, and thus is exempt from further financial qualifications review as specified in 10 CFR 50.33(f). Ohio Edison will continue to be an "electric utility" as defined in 10 CFR 50.2, and thus is also exempt from any further financial qualifications review. Given the financial arrangement between Ohio Edison and OES, and that both will be licensees, the transfer will result in no adverse impact with respect to financial qualifications.

Since CEI and CSC are the only authorized operators and the transfer would not affect their staff, plant operations would not be affected by the transfer. OES will be bound by the existing antitrust license conditions now obligating Ohio Edison, and Ohio Edison will remain obligated to these same antitrust license conditions after the proposed transfer. Ohio Edison has also asserted that it and OES are not owned, controlled, or dominated by an alien, a foreign corporation, or a foreign government.

On the basis of a review of the information in the letters of November 17 and 22, 1995, and other information before the Commission, the NRC staff finds that adding OES as an additional licensee will not adversely affect protection of public health and safety or the common defense and security. Therefore, the NRC staff concludes that OES is qualified to hold the license to the extent and for the purposes that Ohio Edison is now authorized to hold the license with respect to its 17.42-percent ownership interest and that the transfer, subject to the conditions set forth herein, is otherwise consistent with applicable provisions of law, regulations, and orders issued by the Commission.

III

By January 29, 1996, any person adversely affected by this order may file a request for a hearing with respect to issuance of the order. Any person requesting a hearing shall set forth with particularity how such person's interest is adversely affected by this order and shall address the criteria set forth in 10 CFR 2.714(d).

If a hearing is to be held, the Commission will issue an order designating the time and place of such hearing.

If a hearing is held concerning this order, the issue to be considered at any such hearing will be whether this order should be sustained.

Any request for a hearing must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Docketing and Services Branch, or may be delivered to the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, by the above date. Copies should also be sent to the Office of the General Counsel and to the Director, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555, and to Gerald Charnoff, Shaw, Pittman, Potts and Trowbridge, 2300 N Street NW., Washington, DC 20037.

IV

Accordingly, pursuant to Sections 161b, 161i, and 184 of the Atomic Energy Act of 1954, as amended, 42 U.S.C. §§ 2201(b), 2201(i), and 2234, and 10 CFR 50.80, it is hereby ordered that the Commission consents to the proposed transfer of the license described herein between Ohio Edison and OES subject to the following: (1) an approved amendment consistent with the contents of and reflecting this order must be issued after the transfer adding OES as an owner of PNPP Unit 1 for Facility Operating License No. NPF-58, which when issued by the NRC would become effective as of the date of issuance; (2) should the transfer not be completed by January 31, 1996, this order will become null and void, unless upon application and for good cause shown this date is extended.

This order is effective upon issuance. For further details with respect to this action, see the application for transfer dated November 17, 1995, and the application for amendment dated November 22, 1995, which are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document room located at the Perry Public Library, 3753 Main Street, Perry, Ohio.

Dated at Rockville, Maryland, this 20th day of December 1995.

For the Nuclear Regulatory Commission,
William T. Russell,
Director, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-36613; International Series No. 907; File No. SR-OPRA-95-5]

Options Price Reporting Authority; Notice of Filing and Immediate Effectiveness of Amendment to OPRA Fee Schedule Establishing a Fee Payable by Subscribers to Last Sale and Quotation Information Pertaining to Foreign Currency Options

December 20, 1995.

Pursuant to Rule 11Aa3-2 under the Securities Exchange Act of 1934 ("Exchange Act"), notice is hereby given that on December 11, 1995, the Options Price Reporting Authority ("OPRA")¹ submitted to the Securities and Exchange Commission ("SEC" or "Commission") an amendment to the Plan for Reporting of Consolidated Options Last Sale Reports and Quotation Information ("Plan"). The amendment establishes a fee payable by subscribers to last sale and quotation information pertaining to foreign currency options ("FCOs").² OPRA has designated this proposal as establishing or changing a fee or other charge collected on behalf of the OPRA participants in connection with access to or use of OPRA facilities, permitting the proposal to become effective upon filing pursuant to Rule 11Aa3-2(c)(3)(i) under the Exchange Act. The Commission is publishing this notice to solicit comments from interested persons on the amendment.

I. Description and Purpose of the Amendment

The purpose of the amendment is to establish a subscriber fee payable to

¹ OPRA is a National Market System Plan approved by the Commission pursuant to Section 11A of the Exchange Act and Rule 11Aa3-2 thereunder. Securities Exchange Act Release No. 17638 (Mar. 18, 1981).

The Plan provides for the collection and dissemination of last sale and quotation information on options that are traded on the five member exchanges. The five exchanges which agreed to the OPRA Plan are the American Stock Exchange ("AMEX"); the Chicago Board Options Exchange ("CBOE"); the New York Stock Exchange ("NYSE"); the Pacific Stock Exchange ("PSE"); and the Philadelphia Stock Exchange ("PHLX").

² OPRA filed a substantially similar amendment to the OPRA plan (SR-OPRA-95-2) on September 15, 1995. OPRA subsequently withdrew the proposed amendment on November 22, 1995. See Letter from Janet Angstadt, Schiff Hardin & Waite, Attorney for OPRA, to David Oestreicher, Attorney, Division of Market Regulation, SEC (November 22, 1995). In addition to withdrawing SR-OPRA-95-2, OPRA withdrew SR-OPRA-95-1, the proposed amendment to revise the fees payable to OPRA by professional subscribers for access to options market data (except foreign currency options data) and related information. See *id.* To date, OPRA has not refiled an amendment regarding this latter fee revision.
